# Express Yourself with Emojis!

*My students need colorful felt, needles and thread to create exciting emojis! The Craft Felt of Assorted Colors will allow students to customize their projects and 9"x12" will be the base.*

## My Students

In our classroom community we strive to communicate ideas in a positive way. This colorful hands on project allows students to learn how to sew and express themselves through 3D Pop Art. These 3D emojis allow students to combine sewing, a practical skill which will be challenging yet engaging. Students will be excited about the vivid colors and making art that allows them to communicate their emotions. This project will develop fine motor skills and be something out of their comfort zone!

Las Vegas, NV

Half of students from low-income households ?

felt, needles and thread to create exciting emojis. The Craft Felt of Assorted Colors will allow students to customize their projects and 9"x12" will be the base. This lesson will be exciting and engaging to students as it challenges them. The bright colors of the felt will serve to make their artwork pop! The emoji is a great example of contemporary pop art which students can relate to.

*When students love what they are learning they better retain the information.*

This project let's students use their fine motor skills in a way most have not had the chance to. For many, it will be their first experience working with a needle and thread. This is a project they will remember and love!

Donations to this project are now being matched, thanks to support from An Anonymous Arts Funder. Every child should have access to essential art materials and experiences. An education in the arts makes children well-rounded, engaged, and active citizens of the world. This project has been supported in an effort to ensure that all students gain from the many benefits that arts education provides.
